Project

2021

Human Computer and Interaction Project

In this project I use HTML, CSS, and JavaScript. In this project I became a Front-end Developer where I managed and made all the components in this project.
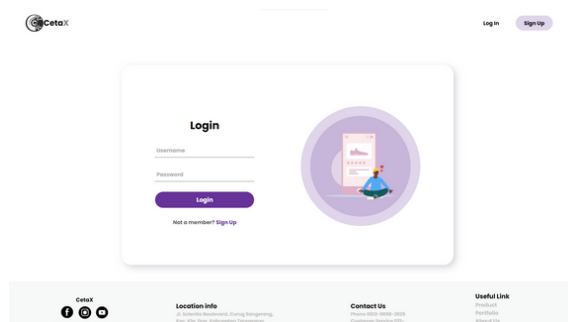

2022

Software Engineer Project

In this project I use HTML, CSS, and Javascript. In this project I collaborate with my friends where I do the Front-end Developer section on the Home Page, etc

2022

Freelance Project

In this project I use the PHP, HTML, CSS, and JavaScript programming languages. On this project I collaborated with my friends from other universities. I acted as Front-end Developer on this project.
